

Prason Ghimire

Marathalli, Bangalore - 560037 | meet.prasonghimire@gmail.com | +91-9663050845

PROFESSIONAL SUMMARY

Engineering Manager and Tech Lead with approximately 9 years of experience driving enterprise-scale software delivery across AI, cloud, and full-stack domains. Proven track record of leading technical teams, establishing engineering standards, architecting production-grade systems, and delivering measurable improvements in performance, reliability, and development efficiency.

EDUCATION

Liverpool John Moores University

Master of Science, Machine Learning and Artificial Intelligence.

UK

2024

Tribhuwan University

Bachelor of Science, Information Management.

Kathmandu, Nepal

2018

EXPERIENCE

Assistant Vice President (AVP), AI Markets

Sep 2024 – Present

HSBC

Bangalore

- Lead and architect enterprise-grade AI applications for financial markets, setting technical direction and engineering standards using Python, FastAPI, Generative AI, MCP Tools, and LLMs.
- Redesign LLM agent architecture using Apache Kafka-based asynchronous communication, improving scalability, fault tolerance, and parallel execution across Guardrails, Logging, and downstream services.
- Develop a Generic AI Data Analyst Agent with SQL and KDB retrieval and secure data handling using LangGraph and LangFuse.
- Refactor a large Python codebase, reducing code redundancy by approximately 40%.

AI Engineering Associate Manager

May 2020 – Aug 2024

Accenture

Bangalore

- Led engineering teams delivering enterprise-scale applications using Python, FastAPI, Flask, and Microservices Architecture.
- Established reusable backend frameworks and standards, reducing new project setup time by ~60% across teams.
- Designed and maintained 20+ production-grade REST APIs for analytics, automation, and document processing.
- Drove adoption of Generative AI solutions using Azure OpenAI, RAG, and prompt engineering to automate business processes.
- Redesigned deployment architecture and implemented CI/CD pipelines using Azure DevOps and Docker, achieving 99.9%+ availability and cutting deployment time by ~70%.
- Evaluated emerging technologies through feasibility studies and POCs, recommending scalable implementation strategies.

Software Engineer

Jun 2018 – Apr 2020

Cotiviti Nepal

Kathmandu

- Developed automation solutions for data profiling, validation, cleansing, and auditing workflows using Python and Java.
- Optimized SQL queries and PL/SQL packages, improving execution performance by up to 60% for high-volume data processing.

CERTIFICATIONS

- AZ-900: Azure Fundamentals
- AI-900: Azure AI Fundamentals
- SAlFe Agile Certification

AWARDS & HONORS

- Tenacious Techno/Star Award, Accenture AI Hub

SKILLS

Engineering Leadership and Architecture: System Design, Microservices Architecture, Technical Strategy, Agile / SAlFe, CI/CD, Azure DevOps, Docker, Kubernetes

AI and Machine Learning: LangChain, LangGraph, LangFuse, Generative AI, RAG Pipeline, OpenAI Services, Prompt Engineering, Deep Learning, NLP, TensorFlow

Backend and Cloud: Python, FastAPI, Flask, Java, Spring Boot, Azure, AWS, GCP, Apache Kafka, REST APIs

Database and Tools: SQL, NoSQL, KDB, Redis, Elasticsearch, JIRA, Git, Linux
